

# SSTSSOPE

---

Super Special Top Secret Special Operative Project Echo

# Agenda

- + Remind audience about our project idea
- + Ask questions and brainstorm solutions about ROS
- + Ask questions and brainstorm solutions about graphics
- + Open up the floor; clarify confusing points; let them ask their own questions

# Our Idea

# ROS

- + We pivoted to using ROS--should we implement using audio with ROS?  
Can a ROS listener detect two things at once?
- + Distributed systems... something to pursue or DEATH WISH?

# Graphics

- + Should we simplify our graphics to keep it within the proper scope considering the two week timeline?
- + Numpy, arrays, efficiency? Worth it as a second step?
- + Mini Code Review Time!
  - + Expected Behavior vs. Actual Behavior

# Q&A

+ Your questions here!
